Story

In the heart of Africa, where cultural expectations often limit women's potential, I discovered a pressing need to empower females to unleash their inner strength. Working alongside a talented yet troubled female boss, I witnessed firsthand the devastating impact of unresolved personal struggles on professional success. Her story, marked by marital strife and transferred aggression, sparked a quest to uncover the secrets of women who had harmoniously balanced their homes, dreams, and careers.

Inspired by the triumphs of accomplished women, I realized that success wasn't solely dependent on individual prowess but also on the support of loved ones. I saw that African women, in particular, faced unique challenges that could be overcome through collective guidance and encouragement.

Story

Continuation

Aunty Anna Hangout was born from this vision – a safe space where women could discover purpose, cultivate resilience, and thrive. Recognizing the importance of biblical principles in shaping healthy relationships and households, I sought to create a community grounded in faith.

Through Aunty Anna Hangout, I assembled a network of experienced mentors and role models to share their wisdom with younger generations. Together, we explore topics ranging from purpose discovery and marital harmony to career excellence and spiritual growth.

Our mission is clear: empower women to break free from limitations, unlock their potential, and become beacons of hope in their communities. By embracing God's blueprint for relationships and personal growth, we believe that every woman can rise to her full potential and inspire others to do the same.

It is indeed an amazing and wonderful experience at the hangout. The event was very outstanding and impactful as series of lectures were made which gave me a broader perspective about social realities in the society.

I encourage the organizer of the hangout to arrange or plan more important gatherings to boost the horizon of youths and women who are key drivers of development. I crave your indulgence for many more hangouts. Thanks in anticipation for the wonderful impact.

I've had the pleasure of attending Aunty Anna's Hangout twice, first as a speaker and then as a guest participant. Both experiences were incredibly engaging and valuable. I was eager to return after the first event, as it exceeded my expectations.

Aunty Anna's Hangout offers the perfect blend of connection, learning, and networking. I thrive on meeting new people, expanding my knowledge, and forging meaningful relationships - this platform delivers all three.

I'm eagerly anticipating the next event! When is it happening?

It was one of the worst stages of my life! everywhere seemed so dark! I was battling with depression when I attended Aunty Anna's event! My life changed immediately afterwards! I became alive, I became hopeful, I saw myself pulling out from a dark place instantly!

I took two words home this day and they will live with me forever! They have contributed to the woman that I am now! They were, "Deliberate" and "Uncommon" I started to feel special again! I started to feel that my story couldn't have been anyone's else except mine and that made me uncommon.

Right in the hall where I attended this event, I became deliberate about my healing process and moving forward I promised myself deliberate growth! This has been my life now and it will be beyond by God's grace! Unconsciously I find myself telling my allies that I am deliberately uncommon and I take life as it comes so it's much more easier for me.

Thank you so much Aunty Anna for helping me pull out of a dark place, I look forward to yet another life changing experience with you.

Few years ago, I attended the Aunty Anna hangout event and my take home was "BECOMING A DELIBERATE WOMAN ". The event was an eye opener and it has shaped my life in the most positive way. From that day on, I told myself that I'm capable of anything I can ever imagine.

Being a deliberate woman implies being intentional, purposeful, and proactive in your life and decisions. It means setting clear goals, prioritizing your well-being, and taking conscious steps to achieve your dreams and aspirations.

This mindset has likely had a profoundly positive impact on my life. Some ways it has shaped me include:

- **Clarity and direction:** I've gained focus and purpose, guiding my thoughts, choices and actions.
- **Confidence and self-awareness:** I've developed a deeper understanding of my values, strengths, and passions.
- **Resilience and adaptability:** I've learned to navigate challenges and adjust to changes with intention.
- **Healthy boundaries:** I prioritize self-care and set limits to protect my time and energy.
- **Empowerment and agency:** I've taken ownership of my life, making informed decisions.
- **Inspiring others:** My deliberateness may motivate those around me to adopt a similar mindset.

I'm grateful to the convener of this inspiring and life-transforming event and I also can't wait to be a part of the next hangout .

I had the privilege of attending the Aunty Anna Hangout in 2020, and it was truly an unforgettable experience. The theme, 'I am Generation Equality: Realising Women's Rights,' resonated deeply with me. The keynote speakers delivered inspiring and thought-provoking insights on passing on values from one generation to another.

The event provided a unique platform for connection, learning, and empowerment. I was impressed by the organizers' attention to detail and commitment to creating a safe and inclusive space for meaningful discussions.

The Aunty Anna Hangout exceeded my expectations, and I left feeling motivated and equipped to make a positive impact in my community. I highly recommend this event to anyone passionate about gender equality and women's empowerment.
